# ANNOUNCEMENT

THE Sale from the Fairview Herd is one of great importance to the breeders of Shorthorns and, in fact, to all lovers of good cattle in any part of America. Almost the first Shorthorns in the West and now the oldest herd, without doubt, they have been bred for practical purposes; and good breeding has been considered alone from the standpoint of merit in the ancestors.

Great prices have been paid for sires and suitable females, when found, to strengthen the herd. The result has been a record of prize-winning that has not been approached by any herd in the West and perhaps for such a number of years by any herd in Canada.

Constitution has been kept in view, good feeding qualities, conformation and milk have also been aimed at, practical utility and general usefulness, the aim that helped the great Cruickshank to attain his success, have been the watchwords at Fairview, and I believe you will admit that a certain amount of success has been attained here when you see the cattle on day of sale.

We invite you to come and see the sale knowing that whether you buy or not you will be ready to admit that the greater part of the life of the owner, spent in the building of the herd, has not been spent in vain.

There is a limit to the life work of a man, but there is no stopping the good influence of good blood in the domestic animals when it is once turned into the current, and it will go on doing good just as long as the opposite kind of blood would keep on doing bad.

All the animals in catalogue will be sold to highest bidder, and they will not sell too dear.

J. G. BARRON.

Carberry, April 30th, 1913.

Miss Cora—96026—is a very valuable heifer, for she belongs to one of the purest and best of the Cruickshank tribes. They were selected in England by that great breeder when laying the foundation of the herd that was to revolutionize Shorthorn breeding throughout the world. When Mr. Campbell was starting his great herd he got some of them from Mr. Cruickshank, and they made good in that herd and were amongst his best. No family has done more in Canada, and this branch has been amongst the best of them. Nonpareil Victoria was a champion in Toronto when shown.

Scotch Thistle—72489—is one of the best bulls that has been reared in the Pine Grove herd. Scottie's Fair Queen is a strong heifer and will make a good show in the yearling class this year. She is from a grand breeding cow that has produced more than one winner. The family is one of the choicest in Aberdeenshire, where they have been bred since the first Shorthorns were in that old county.

Scotch Thistle—72489—is one of the best bulls that has been reared in the Pine Grove herd.
